

Top New Speakers in 2018

This year, we identified 10 new speakers who have achieved high scores and great comments from Vistage members during their first two years as a Vistage Speaker. We will be highlighting these speakers with the Chair community to help increase the awareness of the new workshops and speakers that are available in the Vistage Speaker Directory.

Throughout 2019, we will continue to identify ways to increase awareness of more new workshops and new speakers who have joined Vistage to share their unique expertise with the Vistage community.
